

PLAYER LOGIN SCREENS

• Innovative Competition Management • Control & Interact With Teams & Players • World Class Leisure Sports Management

Customer Login Touch Screen

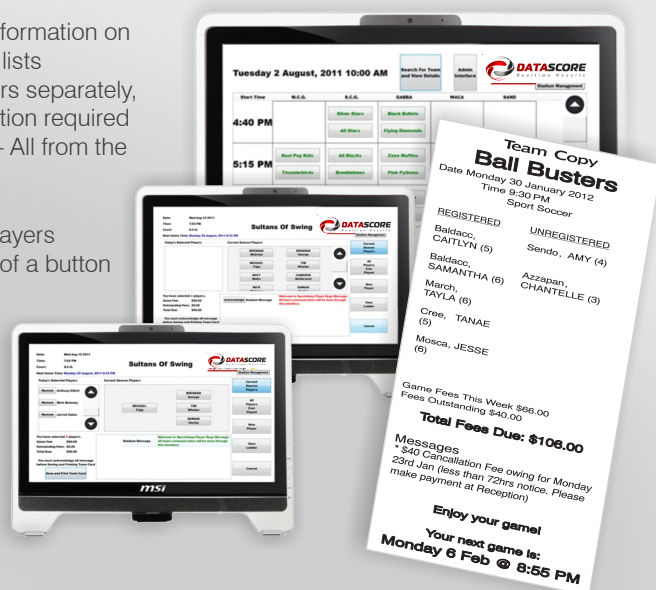

Our customised Login Screens allow Teams/Players to quickly and easily register their player list for each game, greatly reducing time consuming paperwork and data entry for Stadium staff.

- Staff have the ability to communicate individual messages to each team via the touch screen console from the software.
- Thermal printouts give team's up to date information on number of games each player has played, lists Registered players and Unregistered players separately, displays next game time and other information required to be conveyed by Stadium Management – All from the software.
- Data Entry cost are greatly reduced with players inputting their own information at the touch of a button on a nightly basis.

Teams can check their **LADDERS** and **RESULTS** directly from the **PLAYER LOGIN TOUCHSCREENS** prior to their game as they are checking in.

The **PLAYER LOGIN TOUCHSCREENS** populate each Team Administration Card allowing stadium staff to access and print up to date information on who has played each game of the season.

COSTS & REQUIRMENTS

Software cost for the **PLAYER LOGIN TOUCHSCREEN**:

- \$300 biannually for a single screen licence or
- \$600 biannually for a multiple screen licence (which allows you to have as many touchscreens as you like)

This cost translates to a little as **\$1.60** per day to ensure "up to date" and relevant player information for your facility without the arduous labour costs of data entry.

Hardware requirements are an **ALL-IN-ONE TOUCHSCREEN COMPUTER** available at any good computer store with a minimum of 2GB RAM and this computer must be connected to our network.
